

## Bruce E. Taylor

Taylor is currently the Non-executive Chairman of Amistco Separation Products, Inc., a manufacturer of separation products for processing industries. He is also the Non-Executive Chairman of Global Thermoelectric, Inc., a Canadian manufacturer of thermoelectric generators and remote power systems. Taylor was formerly the President at Global where he led an operating and financial turnaround and positioned the company for growth.

Previously, Taylor was a Partner at Cortec Group, Inc, a middle market Private Equity sponsor. He provided strategic and operational guidance for investment decisions. Post acquisition, he supervised portfolio company CEOs driving strategy repositioning and organizational capability development to support growth in direct marketing, consumer products, manufacturing and distribution.

Prior to Cortec Taylor held numerous senior leadership positions in Europe and the U.S. at Eaton Corporation. His final position was Senior Vice President & Group Executive – Automotive with P&L responsibility for a highly profitable \$2 billion group with 37 plants in 13 countries and 16,000 employees.

Earlier in his career, he was a strategy consultant with Mars & Co in Europe and the United States serving clients in consumer and industrial products and food retailing. He was also a U.S. Peace Corps Volunteer in the Philippines focused on small industry development.

Taylor holds an MBA, *with high distinction*, from Harvard University and a BSBA, *cum laude*, from The American University.
